## **Teknoflor Icon Tile**

Milwaukee, WI -- Teknoflor Icon Tile HPD<sup>™</sup> was designed to bring a new dimension of design to any commercial setting. The line hosts 22 skus in three distinct and beautiful visuals for countless design options. "Feathered Concrete" is true to its name and offers an industrial strong, but soft aesthetic while "San Tropez" offers a carpet-like textile that is destined to turn heads; both in a 12"x24" format. Denim, offered in a 7.08"x 47.24" plank construction, offers a true "denim" visual in a head-turning plank with unique lines and hues. Constructed and designed to coordinate with your favorite wood looks, its 2.5mm thickness will sit next to Teknoflor's Forest Plank HPD or our resilient sheet products without the need for a transition strip.

The line holds true to Teknoflor's No Wax, No Buff principle and its promise of high-performance design all without the use of vinyl or other red-list materials.

Learn more about the collection at <u>Teknoflor.com/icon</u>.
